

COMMERCIAL

Britannia is highly experienced in the handling of commercial removals from a single office environment, through to a Blue Chip company's head office relocation or even a major hospital. We are able to assist with initial planning and risk assessment as well as packing preparation and crate management.

If you do not have your own IT technicians we can arrange the decommissioning of the IT equipment for you. With prior agreement we can also provide building protection in both origin and destination buildings. Britannia can also assist with freeing up space in your own premises by taking your paperwork into off site storage. Our archive storage units are purpose built, safe and secure.

PACKING

We are able to offer you a full packing service to make your move as stress-free as possible. Our fully trained staff receive the highest level of removals training from our two dedicated training centres.

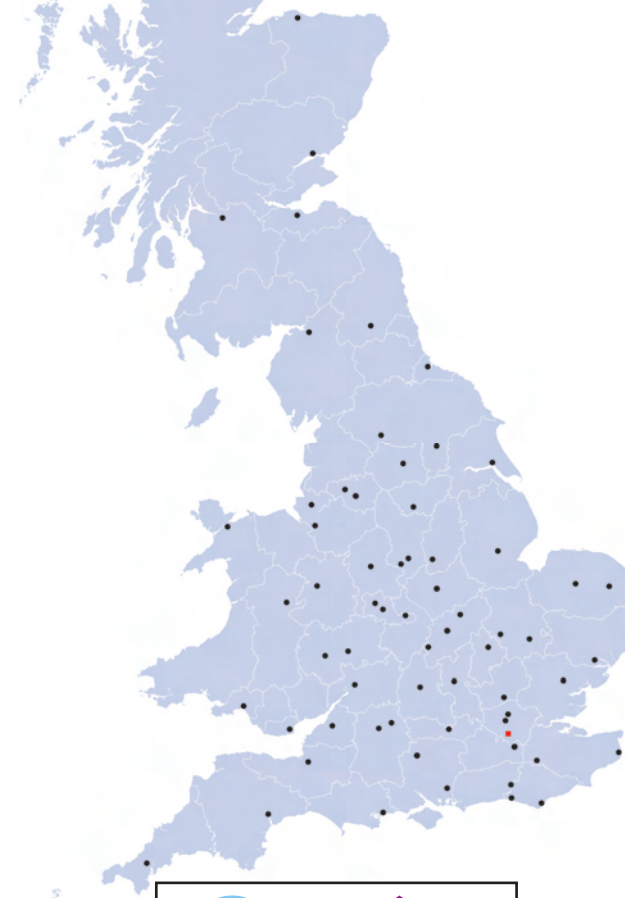

We use clean, safe and modern packing materials that are designed to protect your belongings during the move to your new home.

Should you wish to pack all non breakable personal effects yourself and leave the more delicate items for us to pack this can be arranged if booked in advance. Our full range of specialist packing materials can also be made available to you should you wish to undertake your own packing or just to purchase them from us. During the pre-move survey our representative will be able to discuss the various options detailed above.

With over 40 offices in the UK Britannia have provided customers with professional moving and storage services for over 30 years.

All the Right Moves

Britannia

REMOVALS, STORAGE AND INTERNATIONAL SHIPPING

REMOVALS

As the UK's largest independent moving group, Britannia has helped tens of thousands of people to move home every year, for over 30 years. We take care to find out your removal needs and provide a service that is personal to you in every detail.

Across the UK we have a fleet of more than 400 well equipped vehicles and over 1000 highly trained and experienced staff to help and support you through every stage of the move to your new home.

Our skilled surveyors will assess which type of removal vehicle is best suited to your needs. We will also consider what you are moving, packing service options and access required. Because this is your move we will go out of our way to meet your individual needs, whether moving locally or further afield.

STORAGE

During the process of your removal Britannia is fully aware that storage may be a requirement for a period prior to delivery.

Secure, short or long term storage can be provided at either one of over forty modern storage centres throughout the UK. The warehouses are specially designed for containerised storage to minimise handling and to keep your goods clean, dry and secure.

At the point of collection a detailed inventory describing the content and condition will be produced and a copy left with you. All items other than oversized items such as ladders and large sofas will fit in to our standard units. Many of our depots also offer self storage facilities.

INTERNATIONAL

With our worldwide network of moving agents, you can be sure that Britannia will provide the highest level of service and care through every step of your international relocation. Either following your call to our office or following a pre-move survey we will advise whether your effects will be shipped in their own container or as part of a shared load consignment.

All furniture and larger items are wrapped in multi-layer export grade wrappers. Card can be used for extra protection. Britannia has the depth of experience, sound advice and practical assistance to help you enjoy a smooth seamless transition from your old to new home anywhere in the world.

Whether you are looking for a full household to be shipped overseas or a small consignment we have the appropriate service to suit you wherever your destination might be. For speedier international moves Britannia also provides an air freight service to all major destinations.

EUROPEAN

For more than thirty years Britannia has moved customers' household goods and personal effects to locations throughout Europe. With our large fleet of vehicles and regular weekly trips to all major European destinations, Britannia has the presence in Europe to ensure a convenient service is received by all our customers.

With a wide network of European affiliates Britannia is also able to provide help and assistance across the continent. So, if you are moving back to the UK from Europe we can arrange overseas surveys for you with our local partner as well as pre-move advice. Britannia is also able to provide local European storage across numerous safe and secure modern storage centres.

Call Britannia today and take advantage of the high standards that Britannia customers have become used to over many years.
